Qusai Alsimat

Mobile development

A Flutter Developer with 4+ years of experience in Mobile App Development. Proficient in Kotlin and Flutter & Front End Development, I excel in MVC and **MVVM** architectures, mastering Android's core components and state management tools like getX and **Bloc-Cubit**. My expertise spans JSON and APIs requests, And Object-Oriented Programing (**OOP**), I possess a versatile skill set, covering diverse development tools, web technologies, and databases. With a history of successful collaborations across various projects, I'm dedicated to crafting innovative Flutter applications and consistently exceeding expectations in application programming.
